

Release 38 (18 August 2020)

Dear all,

Release 38 of ARDC Online Services is scheduled for implementation on **Tuesday, 18 August 2020, between 8am and 12pm AEST**. This release implements a number of enhancements and bug fixes to Research Data Australia and Research Vocabularies Australia. Below is the list of all the changes planned for this release.

Research Data Australia

- Privacy Policy update
- Restore the My RDA Google login button
- Implement support for crosswalking between the same harvest metadata prefix

Research Vocabularies Australia

- For a vocabulary that has revision cycle metadata, show that revision cycle on the vocabulary's Portal view page
- In the related entity popups on Portal view pages, sort related vocabularies alphabetically by title
- Restore support for deletion of user-specified access points
- If a version's slug is changed, so that Linked Data API URLs change, update the indexes correctly so that the new URLs are used in resource search results
- In My Vocabs, when selecting a PoolParty project to add, show project names in tooltips
- Add a Registry administrative API method to force a soft commit of the Solr collections, for use in automated tests
- Improve logging of Portal internal errors on production and demo servers

IGSN Service

- Privacy Policy update

During the implementation, the following services are impacted:

- Research Vocabularies Australia portal

The following services are not impacted and will still be available during release implementation:

- Research Data Australia portal and RDA Registry
- RVA editor (PoolParty)
- DOI service
- DOI Resolution
- Handle service
- Handle Resolution
- IGSN service
- IGSN resolution

A soft release on Demo is happening on **Monday, 17 August 2020**. The following services will be intermittently unavailable during the soft release:

- Research Vocabularies Australia Demo portal

Please schedule your activities accordingly. Feedback or comments should be sent to services@ardc.edu.au. Thank you for your support.
